

LARSON—MATH 255—HOMEWORK WORKSHEET 11
Problems.

1. Log in to CoCalc.

- (a) Start the Chrome browser.
- (b) Go to <https://cocalc.com>
- (c) Login (**your VCU email address** is probably your username).
- (d) You should see an existing Project for our class. Click on that.
- (e) Click “New”, then “Sage Worksheet”, then call it **h11**.

Annotate your work carefully and completely. The more explanation the better! If you are stuck, get help, talk to your classmates, try things. At worst, your worksheet should include all your dead ends and **attempts**. (You can’t ever succeed unless you **try**).

The four adjacent digits in the 1000-digit number that have the greatest product are $9 \times 9 \times 8 \times 9 = 5832$.

Problem. Find the thirteen adjacent digits in the 1000-digit number that have the greatest product. What is the value of this product?

Getting your homework recorded

When you are done writing up your nicely annotated code examples...

- (a) Click the Printer-icon button and make a pdf of this worksheet. (If Cocalc hangs, click the *File* button, then Save-and-Download as pdf (via “JupyterLab notebook” is slightly more attractive than the “Classic” option).
- (b) Send me an email with an informative header like “Math 255—h11 worksheet attached” (so that it will be properly recorded).
